## DESCRIPTION

Multifunction flush mounted wall lights with injected aluminium body. Available in different versions for halogen lamps, discharge lamps, compact fluorescent lamps (ballast included) and LED lamps. Finished in matt white or anodised silver. For the matt white option the unit may be completely flush fitted into the architecture with the use of thermoplastic paint. The two asymmetric models allow the lamp to be tilted up to an angle of $60^{\circ}$ on the vertical axis and its double lower chassis allows the light to be focused up to an angle of up to $355^{\circ}$ horizontally.
